Course Brochure

Semana Vidya Va Van Vikas Prashikshan Mandal, Gadchiroli's Gramgeeta Mahavidyalaya, Chimur Add on Certificate Course in Environmental Science

Certificate Course in Biodiversity and Forest Conservation

Course Coordination

Department of Environmental Science Gramgeeta Mahavidyalaya, Chimur Wadala (Paiku), Pimpalneri Road, Chimur, Dist. Chandrapur, Maharashtra, India.

ABOUT THE COURSE:

Semana Vidya Va Van Vikas Prashikshan Mandal, Gadchiroli, Gramgeeta Mahavidyalaya, Chimur is the Under graduate college for Arts, Science and Commerce and first granted Science college in Chimur Taluka of Chandrapur district which provides education in Arts, Science and Commerce stream at U.G. level to educationally, Economically, Socially backward students of this taluka. Since 2009 many students graduated with B.Sc. in Botany, Zoology, Chemistry, Environmental Science, Mathematics, Physics and Computer Science from the Science faculty.

The Department of Environmental Science is providing platform for students who are willingly want to study Environmental Science subject. The department of Environmental Science was introduced in the year 2009 on non-grant basis and got its grant in the year 2012.

IQAC of institute in its meeting decided to introduce few self-finance pilot add-on courses for three academic sessions from session 2019-20. The continuation of these courses after three years will be depend on interest and participation of students, course outcomes and financial provisions from the Institution. Forests contain our planet's most lively ecosystems, displaying an incredible variety of birds, animals, and plants. Forests are the basis for more than 5,000 products, from aromatic oil distilled from leaves to herbal medicines, fuel, food, furniture and clothing; they prevent soil erosion and help to regulate the climate; they provide clean water; they inspire us in art, research and religion; and they are essential to the survival and well-being of people everywhere. Yet, the world's forests are facing immense pressures and challenges. Key findings show that while deforestation has slowed somewhat in recent years as compared to the 1990s, it is still alarmingly high. Continued deforestation has resulted in carbon emissions, shortages in water and food supply, and an unprecedented loss of biodiversity. But the world is not standing idly by. Governments, international organisations and forest stakeholder groups are taking action—to find ways of conserving and sustainably managing forests for the benefit of present and future generations.

This course aims to raise awareness of the threats and challenges faced by forests and biodiversity to promote efforts for biodiversity and forest conservation and also for sustainable development. Preserving the world's rich forest biodiversity will help us fight the climate crisis, alleviate poverty, support human health, and leave our children and grandchildren the bountiful and beautiful legacy of living forests that we enjoy today.

Recognizing the importance of biodiversity conservation to a comprehensive strategy for sustainable development, over 150 governments signed the Convention on Biological Diversity at the 1992 Earth Summit in *Rio de Janeiro* (the United Nations Conference on the Environment and Development, UNCED). Since then more than 175 countries have ratified the Convention, which is the first global agreement on the conservation and sustainable use of biological diversity.

Objectives:

- To educate students about nature conservation, forestry and forest.
- Creation of environmental awareness among all sectors of people.
- Creating awareness for protection and conservation of flora, fauna, forests and wildlife, biodiversity conservation.
- To promote the efficient use of forest resources.
- To provide long-term forest productivity and conservation of forest resources through reforestation, soil conservation, afforestation etc.
- Wildlife Habitat Management for In-situ and Ex-situ Conservation of wildlife.
- To protect water quality in streams, lakes, and other water bodies.

Starting - 03.12.2018

Course Outcomes:

- Students will be competent in basic forest management principles and evaluation of forest stands for health, wildlife habitat.
- Students will understand how the environment influences plant growth and crop yields, and ways to modify the environment to improve plant growth and yields.
- Students will be able to identify soil types and how they are formed and ways to modify soil structure and drainage to reduce erosion and improve water quality.
- Students will be able to know and Explain biodiversity, its threats and conservation methods
- Gain in-depth knowledge on natural processes that sustain life.
- Predict the consequences of human actions on the web of life, global economy and quality of human life.
- Students will be able to develop critical thinking for determining strategies for environmental protection and conservation of biodiversity and sustainable development.
- Students will be able to participate actively in solving current environmental problems and preventing the future ones.
- Students will be able to adopt sustainability as a practice in life.

Gramgeeta Mahavidyalaya, Chimur Add on Certificate Course in Environmental Science Session 2018-19

<u>Certificate Course on Biodiversity and Forest Conservation</u>

Course Coordinator

Mr. Bijankumar Shil Assistant Professor and HOD Department of Environmental Science

Introduction:

Semana Vidya Va Van Vikas Prashikshan Mandal, Gadchiroli's, Gramgeeta Mahavidyalaya, Chimur is the Under graduate college for Arts, Science and Commerce and first granted Science college in Chimur Taluka of Chandrapur district which provides education in Arts, Science and Commerce stream at U.G. level to educationally, Economically, Socially backward students of this taluka. Since 2009 many students graduated with B.Sc. in Botany, Zoology, Chemistry, Environmental Science, Mathematics, Physics and Computer Science from the Science faculty.

The Department of Environmental Science is providing platform for students who are willingly want to study Environmental Science subject. The department of Environmental Science was introduced in the year 2009 on non-grant basis and got its grant in the year 2012.

IQAC of institute in its meeting decided to introduce few self-finance pilot add-on courses for three academic sessions from session 2017-18. The continuation of these courses after three years will be depend on interest and participation of students, course outcomes and financial provisions from the Institution.

• Eligibility:

Minimum XIIth and above.

• Objectives:

- > To educate students about nature conservation, forestry and forest.
- Creation of environmental awareness among all sectors of people.
- Creating awareness for protection and conservation of flora, fauna, forests and wildlife, biodiversity conservation.
- > To promote the efficient use of forest resources.
- To provide long-term forest productivity and conservation of forest resources through reforestation, soil conservation, afforestation etc.
- ▶ Wildlife Habitat Management for In-situ and Ex-situ Conservation of wildlife.
- > To protect water quality in streams, lakes, and other water bodies.

Course Outcomes:

- Students will be competent in basic forest management principles and evaluation of forest stands for health, wildlife habitat.
- Students will understand how the environment influences plant growth and crop yields, and ways to modify the environment to improve plant growth and yields.
- Students will be able to identify soil types and how they are formed and ways to modify soil structure and drainage to reduce erosion and improve water quality.

- Students will be able to know and Explain biodiversity, its threats and conservation methods
- ➤ Gain in-depth knowledge on natural processes that sustain life.
- Predict the consequences of human actions on the web of life, global economy and quality of human life.
- > Students will be able to develop critical thinking for determining strategies for environmental protection and conservation of biodiversity and sustainable development.
- Students will be able to participate actively in solving current environmental problems and preventing the future ones.
- > Students will be able to adopt sustainability as a practice in life.
- **Duration of Course:** 30 hours
- **Students Intake:** 15 students
- Medium of Instruction: English
- Course Fees: NIL
- Course Structure: One credit equivalent course
- Certificate: All the students passing the examination will be given certificate
- Syllabus: Curriculum Basic certificate course in Biodiversity and Forest Conservation

Unit- 1. Introduction to Biodiversity:

Biodiversity: Species, genetic and ecosystem diversity, levels of biodiversity, Importance and biodiversity indices, values of biodiversity, hotspots of biodiversity, Factors Responsible for Loss of Biodiversity, Preservation and Conservation Strategies for Biodiversity. Endemic species and Endangered Species.

Unit-2: Biodiversity conservation

Biodiversity Conservation: 'Ex-Situ' Conservation, 'In-Situ' Conservation, Restoration of Wilderness and Green Cover, Methods of Conservation, Education awareness, biodiversity act 2002, Biological diversity rules, 2004.

Unit-3: Introduction to Forest

Forest: Introduction, Classification and Importance of Forest. Introduction to Silviculture, Plant Growth Factors, Ecological Succession. Forest Soil: Soil and Soil Profile, Major soil types. Deforestation: Factors leading to deforestation and effects of deforestation,

Unit- 4: Forest Conservation

Forest Measurement: Tree Form, Measurement of tree attributes, Community Based Forestry: Concept, scope, need and objectives of Community Based Forestry, Types of social forestry, Bishnoi Community of Rajasthan, 'Chipko- Movement', Joint Forest Management (JFM), Forest (Conservation) Act, 1980, Indian forest Act (Revised) 1982

- Total 30 classroom lectures of 1hour duration
- Practical Based on Syllabus:
 - 1. Visit to local forest or a sanctuary.
 - 2. Study of medicinal plants of local area
 - 3. Study of some endangered and endemic species.
 - 4. Forest measurement
 - 5. Importance of hotspots of biodiversity

Distribution of Marks:

Any two experiments: 10 Marks

Viva-voce: 10 Marks

Total Marks: 20 Marks

- Mode of Assessment:
 - 1. Total Marks: 30 marks
 - 2. Duration Three hours.
 - 3. Theory question paper pattern: MCQs Type
 - 4. All questions are compulsory
 - 5. There will be one question on each unit.

Books and References Recommended

Add on Certificate Course on

Biodiversity and Forest Conservation

Session 2018-2019

Notice

Date-28/11/18

The students those who are enrolled for the above said course are here by informed that their classes for certificate course will be commencing from 03rd of December 2018. All are requested to attend the class regularly as per the time table. The time table is displayed on notice board of department of Environmental Science.

Course Coordinator Head Department of Environmental Science Gramgeeta Mahavidyalaya, Chimur Gramgeeta Mahavidyalaya Stamgesta Mahavidyalay, Chimur

Department of Environmental Science

Report of Add on Certificate Course on Biodiversity and Forest Conservation

Date: 20/03/2019

Add on certificate course on Biodiversity and Forest Conservation was conducted by Department Environmental Science, Gramgeeta Mahavidyalaya, Chimur, in the session 2018-19 for the B.Sc. students. Duration of the course was 3rd December 2018 to 12th March 2019. The certificate course was carried out in 30 hrs. time frame.

The registration was started from 20th November 2018. There were total 12 students were enrolled for the certificate course. The theory classes were started form 3rd December 2018. Prof. Bijankumar Shil and Prof. Jija Shende engaged their theory and practical classes. All the enrolled students regularly attended the theory and practical classes.

The theory examination was held on 11th March 2019 and practical examination was held on 12th March 2019. All enrolled students appeared for the theory and practical examination as per given time table. All the students secured good marks and passed in the Ist division. The certificates of course were distributed on 18th March 2019.
