Report on Blood donation camp during Covid-19 Pandemic

Session: 2020 - 21

A Blood donation camp was organized by our NSS unit on 22nd June, 2020, in collaboration with Nehru Yuva Kendra, Chandrapur. A group of 2 doctors and 4 assistants from Government Hospital, Gadchiroli were present for conducting the camp.

The camp was inaugurated by the Principal of our college Dr. Amir A. Dhamani. The camp was aimed at strengthening the healthcare system amid the coronavirus pandemic. NSS volunteers were deployed around the camp in order to ensure safety and social distancing in the area. The camp witnessed participation from residents, faculty, and students from Gramgeeta Mahavidyalaya who came out for the cause despite the COVID-19 crisis.

The donors were asked to fill a medical form to give details about their health-related information. Before the donation, checking weight, pressure, and body temperature were measured so that the one donating blood does not have to face further. The program was held in the program hall of the college. The one donating blood were allowed for the rest of a few minutes and given refreshments and certificates.

According to the Health experts, India faces a blood shortage of 3 million units, which can be fulfilled if an additional two percent of Indians donate blood. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very
